Find project partners

Building international partnerships is part of taking part in EU research programmes. CORDIS has an established Partners Service and a specialised service for FP7, fostering public-private partnerships to design, propose and launch new projects.

You can use the search facilities to find international partners with the complementary expertise, profile or technology that you are looking for.

Enter search term(s):	<input type="text" value="Water sanitation"/>
EU funded collaboration	
Profile Type*:	<input type="text" value="Project Proposal"/> <input type="text" value="Company Expertise"/>
Programme*:	<input type="text" value="FP7-COORDINATION"/> <input type="text" value="FP7-ENERGY"/> <input type="text" value="FP7-ENVIRONMENT"/> <input type="text" value="FP7-Euratom"/> <input type="text" value="FP7-Euratom-FISSION"/>
Country*:	<input type="text" value="Any Country"/> <input type="text" value="AUSTRIA"/> <input type="text" value="BELGIUM"/> <input type="text" value="BULGARIA"/> <input type="text" value="CYPRUS"/> <input type="text" value="CZECH REPUBLIC"/> <input type="text" value="DENMARK"/> <input type="text" value="ESTONIA"/>
* Keep the control key pressed to make more than one selection ** As defined by UNSC resolution 1244 of 10 June 1999	
<input type="button" value="Search"/> <input type="button" value="Clear"/>

7. Каталог проектов, принятых к финансированию по результатам 1-го конкурса 7РП по «Окружающей среде/климату (см. на CD)
8. Каталог проектов 6РП по темам «Окружающая среда» и «Здоровье», (см. на CD)

Возможности для поиска партнеров из ЕС и рекламы своего опыта(5)

9. Каталог организаций, желающих участвовать в проектах 7РП по направлению «Окружающая среда, изменения климата». Потенциальные белорусские партнеры приглашаются к участию.

Для того, что быть представленным в каталоге, **необходимо до 30 октября 2009 г. заполнить on-line форму** по адресу <http://www.irc.ee/envncp/>. Получив определенное количество форм, организаторы начнут формирование и постоянное пополнение каталога, который будет доступен по тому же адресу, что и форма.

Каталог в его конечном виде будет доступен on-line в конце ноября, на бумажном носителе – в середине декабря, на CD – в конце декабря 2009 г.

FP7 INFORMATION & BROKERAGE EVENT ON ENVIRONMENT (Including climate change)

October 19 - 20, 2009 Yerevan , Armenia

S&T International Cooperation Network for East European and Central Asian
Countries
Inconet EECA

Information & Brokerage Event on
FP7 Environment (Including climate change)
October 19-20, 2009 Yerevan , Armenia

International cooperation between EU and non-EU countries is an important aspect of FP7 and is an integral part of Theme 6 on Environment (including climate change) International cooperation is implemented in Theme 6 via two mechanisms:

- **Opening up all research activities to researchers and research organisations from third countries.** Moreover, several topics in the Work Programme, where mutual benefit is envisaged, specifically encourage participation of third countries participants.
- **Specific International Cooperation Actions (SICA).** SICA projects, where third country participation is a requirement, aim to generate, share and apply knowledge through research partnerships with third countries in selected areas, where mutual interest and benefit from such actions is known to exist.

This Brokerage Event is organised in the framework of the FP7 IncoNet EECA project.

The countries of Eastern Europe and Central Asia (EECA) are of utmost importance for the political, economic and social development of the European Union. As a neighborhood region and as a huge resource in various respects, the political and social stability of the EECA countries and their economic growth contribute to prosperity and welfare in Europe as a whole. The EECA countries have significant potential both in terms of the strong academic community and of worldwide leading S&T institutes in a variety of scientific disciplines. In order to make optimum use of each others academic strengths, to share respective resources and to prepare the ground for a joint transfer of academic results to national, regional and worldwide markets there is a strong bi-regional interest in enhancing S&T cooperation. IncoNet EECA project mainly aims at supporting and facilitating a bi-regional EU EECA S&T policy dialogue and strengthening the participation of EECA countries in FP7 emphasis on the Cooperation Programme.
